Not the #UltimaV box cover this time, but the original painting created by @Denis_Loubet in 1987. I took the pilgrimage to view this sacred relic in person. So of course, this is what I do. #GooglyEyedGames #VandalEyes @RichardGarriott @ultimadragons

So cool you got to see the original! But it had to get Googled, just had to!

Of course! But seriously, seeing these in person was stunning. So many tiny details. Every masterful brushstroke composing the impactful whole. Not a mark out of place. Denis is one of the greatest artists of our time. Humbling he's also a regular guy who plays video games. 🤔

“Not a mark out of place”... incorrect!!! Look more closely at the Ultima III Art. Notice the rock walls on the left & right. Look closely. On the rocks to the right, see the black specs (painted via tooth brush splatter)... look to the rock on the left... notice something?
